

KeySpeak Talking Keyboard

The ideal interactive learning tool for anyone who want to learn keyboard skills.

Perfect for children of all ages from primary through to senior.

Looking to get that grasp of the keyboard and have failing or no sight, the KeySpeak is there speaking the keys as you locate them.

All one hundred and three keyboard keys are spoken on a standard computer

Connecting a standard PS2 computer keyboard to the unit will instantly speak any key pressed in clear distinctive voice.

Operates from either internal PP3 9volt battery or external AC adaptor supplied.

Versions in UK and US English standard with European language voicing available

Reminder message to change the battery

Helps to resolve problems of learning difficulties.
